Hello Everyone,

We're super excited to again deliver a world-class Prospeed Racing Tarmac Sprint Series at Sydney International Dragway! We've listened to your survey feedback and are making some changes to the series.

## Your Feedback in Action!

Based on your valuable input, we're thrilled to confirm the following for this season:

**Cost:** Single Driver entry at the same price as Driver with Co-Driver

**Course Variety:** As requested, we will run the 4.5km stage in both directions for added challenge **and variety**.

**Gravel Tyre Class:** It's back! We are officially re-introducing the Gravel Tyre Class.

**Class Tuning:** We will be fine-tuning the Street Car Class rules to improve the competition for everyone.

## Event Details

The stage remains a 100% asphalt course, made up of fast and slow sections designed to challenge you and your car. As always, we'll be tweaking some of the corners to keep you on your toes!

We encourage safe fun, so Drift cars are welcome to participate, and drifting is permitted on 90% of the track.

This series is only possible thanks to our 55+ volunteer officials who run each round. They are vital to your safety and the event's future, so please be sure to thank them.

## Come and Have a Go!

The future of this series relies on attendance numbers, so please encourage people you know to come out for a great day. We're a friendly bunch and know being a 'newbie' can be daunting. If it's your first time, please let us know so we can answer all your questions and give you a fantastic experience!

  - The competitor must download the Event Scrutineering Form prior to attending regional scrutineering. The form can be downloaded from the Official Noticeboard: <https://nsscc.com.au/twilight-rallysprint/#documents>
  - If the correct form is not used, the vehicle will need to be re-scrutineered at the Event.

  - Once Scrutineered, please bring the completed form with you to Event Documentation.

## 5.5 Penalties

Hitting a Chicane or No-Cut Corner Bollard and gaining an advantage – 5 seconds

Incorrect side of bollard and gaining an advantage – 30 seconds

The Clerk of the Course reserves the right to take into account all official documents when compiling the results, including control cards and to correct any verified recording errors.

## 5.6 Timing and Results

The primary timing system used will be an electronic transponder system triggered at the start and finish lines recording time to 1/10th of a second at the Flying Finish with a transponder in each competing car.

Should a car have more than one driver entered, a separate transponder will be supplied for each driver. Each driver is responsible for ensuring their transponder is fitted at the time of their competition run. A secondary system will use a large display clock at the start line and a laser beam.

Results shall be determined by a cumulative time from the best three runs of the first five competitive runs of the course. For promotional or sponsorship commitments additional runs may be approved at the Clerk of the Courses discretion.

Single Driver entries (SD Class - All entries with no Co-Driver) will be included in results as a separate class BUT will not be eligible for outright awards or Series Points. A separate class award will be awarded for the SD Class.

Gravel Tyres Class entries (must be a Driver and Co-Driver team) will be included in results as a separate class BUT will not be eligible for outright awards or Series Points. A separate class award will be awarded for the Gravel Tyres Class (for both Driver and Co-Driver).

Provisional results will be available 30 minutes after the last car completes the event. The results are official and final 72 hours after the Provisional results are published, should no protests on the results be received.

Any Protests must be lodged in accordance with the NCR.

## 5.7 Finishing Qualifications

As per table 2.1, only the best 3 attempts at each stage will contribute towards results for each competitor.

Competitors must start each section from a standing start under the vehicle's own motive force and must complete the section without assistance from other vehicles in a reasonable time as determined by the Clerk of the Course or their nominee

Any crew that enters or leaves the course in other than the prescribed direction shall be deemed to have aborted that run and no time will be recorded.

## 5.8 Medical

A paramedic will be in attendance for the duration of the Event.

## 5.9 Event Signage

It is a condition of entry that all competing cars display the event and/or series sponsor signage provided at documentation. The Event signage supplied is outlined in Appendix B.

## 5.10 Re-Joining

An aborted run or a Did Not Finish (DNF) for a run does not constitute a retirement. If a crew presents ready to start at their nominated start time for the next run they may continue the Event.

### 5.11 Retirements

Any crew retiring from the event must notify the Clerk of the Course.

An accurate reason for withdrawal and any damage to vehicles or other property must be supplied. An Incident Report must be completed if a competitor or other person sustains any injuries and the Organisers may require any crew to complete an Accident Report or other Motorsport Australia forms.

Failure to comply with these conditions may result in competitors being referred to the Stewards who may consider an act as a Breach of Rules in accordance with the NCR and with further reference to these regulations.

### 5.12 Postponement or Cancellation

The Organiser reserves the right to postpone or stop the Event in accordance with the NCR or:

- if there are less than 35 entries; or
- by reason of “Force Majeure”.

## ARTICLE 6 INSURANCE

Occupants of any vehicle competing, must comply with the event entry conditions.

### PROPERTY DAMAGE:

Each competitor/crew is liable for any damage which they cause, however a claim may be applicable under Motorsport Australia insurance, through the insured entity, which is the Event Organiser, to compensate for the cost of that damage. An excess of \$5,000 is payable where an insurance claim is made. If the cost of any damage is less than this excess, the competitor/crew is required to pay only the actual cost of rectification, in which case where the cost of that damage is known the organisers reserve the right to invoice the competitor/crew at the event and payment of any such invoice is required on the issuing of that invoice.

**EXAMPLE: If a plastic barrier is damaged (and witnessed by a judge of fact) a cost of \$400 per barrier will be invoiced by NSSCC on the night and must be paid immediately.**

### PERSONAL INSURANCE:

Although Motorsport Australia Licence holders are covered by Motorsport Australia personal accident insurance, all crew members are encouraged to have their own personal health insurance and be a current member of an appropriate ambulance service.
